## MA - SSIT - GE D - SEYO...

... means „enjoy your meal“!

Welcome to my kitchen, where I happily prepare many delicacies from my home country.

Our Korean food offers a wide range of flavors: spicy, sweet and sour, mild and salty. For their preparation, I only use high-quality plant oils such as wild sesame oil (perilla oil), sesame oil and Safflower oil – and of course authentic Korean pastes and spices, with no flavor enhancers. Everything is rounded off with fresh, high-quality regional ingredients.

Generally, Korean cuisine is very healthy – valuable nutrients are maintained through the especially gentle way of preparation. Low-fat cooking makes the food light and salubrious. We Koreans use dried vegetables in the winter – a way of preserving vegetables. Our basic spices are garlic, spring onions, soy sauce, ginger, chilli paste and powder, soybean paste, sesame oil and perilla oil.

Incidentally, I come from Ichon, which lies about 60 km south east of Seoul. My great-grandmother cooked for the royal house (the leader of the country has only been called „Emperor“ since 1897). The art of cooking has been a tradition in our family for over a century.
